Faculty of Nursing Presents
LIFELINES 1985-86

Our Year in Retrospect

When you know a thing, to hold that you
know it;
and when you do not know a thing, to allow
that you do not know it;
this is knowledge.

MESSAGE FROM THE DEAN . . .

I am pleased to be part of the 1986 Undergraduate Yearbook, an established and important tradition in the Faculty of Nursing. The Yearbook captures and records for all time aspects of one brief period in the long life of this University, aspects that have brought joy and richness to the members of this Faculty of Nursing and to their friends. Each member is a vital component of the Faculty, contributing a share to the excellence of its activities. As each moves on to new activity and challenges may the joy and satisfaction reflected in these pages continue and grow. On behalf of the Faculty of Nursing I wish you well.

Phyllis E. Jones
Dean

. . . AND THE UNDERGRADUATE CHAIRMAN

I am very happy and proud to congratulate the Class of 1986 on the exciting occasion of your graduation. We will not soon forget your collective spirit and the impact you have made on the Faculty of Nursing.

May you all carry on that spirit out into the real world of professional nursing and make your mark there too. All your teachers join me in wishing you well and thanking you for your many contributions to the life and work of the Faculty.

Anna Jean Rouse

PRESIDENT

I have been very fortunate this year in working with the dedicated and involved group of individuals who made up the 1985-86 Student's Council. Because of their hard work, we managed to offer students a wide variety of extracurricular activities. From nursing pubs to sports teams to speakers on various professional nursing issues, there was something offered to interest everyone. Hopefully, this took all our minds off of care plans and essays, at least for a few minutes!

I would like to thank every member of Student Council for their hard work and enthusiasm. Your dedication did not go unnoticed.

To the first, second and third year students, good luck. The years here seem never-ending at times, but they are over far too soon. Get involved and make the most of them.

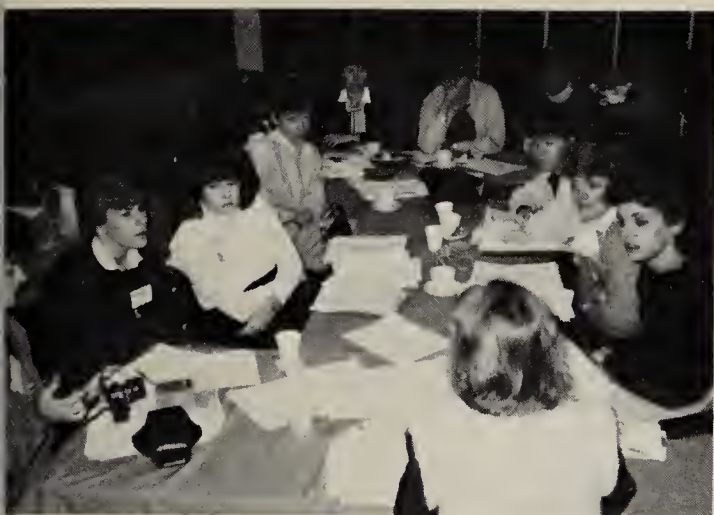

To the graduating class, congratulations, we actually made it!

I wish everyone the very best and hope you will leave with many fond memories of this faculty.

Claudia Weidenborner

VICE PRESIDENT

C.U.N.S.A.

C.U.N.S.A. represents the CANADIAN UNIVERSITY NURSING STUDENTS ASSOCIATION, and it allows students the opportunity to explore common interests and health-related issues with other university nursing students across Canada.

At the University of Toronto, speakers were invited to expand on the roles of the clinical nurse specialist and the nursing practitioner, as well as the increased role of the baccalaureate nurse in northern Canada. At the regional and national levels, students from the University of Toronto met with other Canadian nursing students to promote the growth of professionalism among nurses. Discussion of relevant nursing issues focussed around the conference themes of Ethical and Legal Issues in Nursing, and Nursing in the Federal Prison System.

EDUCATION

Education Director? What's that? Who's that? As Education Director, I am responsible for the implementation of, and organization of extra-curricular educational activities for the nursing student body. The CPR courses, Nursing Career Day, display at the Medical Society Open House, and Education display board, were all organized under the guise of "Education". All of those who participated in these events had some fun and actually LEARNED something. AMAZING!

Yes, I have enjoyed this student council position and would do it again. Have no fear, life is a continual learning process.

All the best for your future
Nicola Dorosh
Education Director

S.H.O.U.T.

Student Health Organization of the University of Toronto. Our recruiting drive for S.H.O.U.T. at

registration had two main purposes. First, to recruit volunteers from Year III, and secondly, to increase Faculty awareness of the invisible existence of such a program. For the second consecutive year, we have lost the participation of Year II students due to curriculum changes, which places the entire onus for success of SHOUT on Year III -- no doubt, a heavy burden to bear.

Some changes have been instituted this year, and recommendations made for the future. One major goal is to increase the general awareness and visibility of SHOUT as an important and viable service to our students.

I would also like to take this opportunity to thank all those who were involved in SHOUT this year, and wish those in 1986-87 the best of luck in their pursuits.

Donna Nanton -- SHOUT Rep.

HEALTH PROMOTION PROJECT

The Health Promotion Project is a Supplementary four year community clinical experience. The project, established in 1984, provides fourth year students with an opportunity to carry out health promotion programming in their own community, namely the university campus. In doing so students operationalize some of the beliefs embodied in the Faculty's conceptual framework and demonstrate the role of nursing in health promotion.

Frosh Week

You have no idea of how many people you can possibly meet in one week, or how lost or how hot and tired you can be until you live through a frosh week. It can also be a scary and lonely time. At the same time everything is new and exciting. It is a time for beginnings. Despite all the rush and bother frosh week has a special quality and most people find that the memories they have and the friends they make during this hectic week will remain with them for the full four years and beyond.

As you can see from these pages everyone who participated had a wonderful time. The dinners, games, races and the infamous run-a-round and Devo nurses wash will certainly be remembered. A special thanks must go to Nadine Romanyk who worked very hard all summer to make this week a success.

Unfortunately not all the teams received the honour of having their photographs in the yearbook from no fault of their own. Nonetheless they should be recognized for their effort in the faculty spirit and dedicated attitudes. If, after this addition I have still left out some well-deserving souls, then I humbly apologize!

This year, our athletes have "played hard" in a wide range of sports for Nursing. Christened the "I.V. League", teams carrying this name represented our faculty well. No first place finishers in playoffs but we put forth our best effort with our teams in volleyball (Both Div. 11 and 111), field hockey, basketball and soccer.

The world of sports was indeed a busy time for Nursing's participants this year. Showing how enthusiastic and active a faculty we are, Nursing captured the A.E. Marie Parkes Award for its third consecutive year in our Division. It is an award for accumulating the most points based on participation and success in competition. Congratulations I.V. League! Thanks goes to all of our participants and coaches for maintaining our strong presence in sports on campus. It's great for such a busy faculty. We are indeed an elite, intellectual, and ATHLETIC bunch who like to have a lot of fun at the same time.

Take Care,
CATHY WEST AND MELODIE OTLEY

Basic One.

Looking through these pages at the bright, eager faces of the faculty's newest recruits one cannot help but wonder at the vast number of changes these students will go through. University is much more than an invaluable academic achievement, it is a transition point. As every new experience occurs they will be a little different than when they began. Let us hope that they and all of us will use these experiences to grow and stretch toward our potential.

GOOD LUCK EVERYONE!

A TRIBUTE TO THE LATE HAZEL BAUER

She smiles at God - a friendly smile,
It glorified her face.
And then she said in a voice so clear,
"Well, I'm here, your Grace."
And God smiled too, - a kindly smile,
He said, "Now you can rest. You've done the most
you could for Man. Enter, and be blessed."
With shining eyes, she shook her head,
She said, "I'll enter now, but I'll not rest-
for I cannot. You see I don't know how.
On earth I worked unceasingly - I knew
not day or night,
So I'll just go on working here - if
that will be alright."
Then in she went, her head held high-
And God got down his files.
He opened them and there he wrote,
Not number, name or verse,
Just golden letters, pure and clear,
The simple words, "A Nurse".

Dear Fellow Students;

Here we are at the end of another year and this yearbook. It is probably a little smaller and different than you expected, but I hope it is the quality, not the quantity that counts in this case. Believe me, we did our best!

Being the only one truly responsible for the yearbook was difficult. It is hard to get well organized and to get people motivated and to really contribute. It can be very frustrating and I can sympathize with past Editors. I think it is great that next year there will be class reps for the yearbook plus the editor. A step in the right direction because, not only are more people responsible for the outcome, but, hopefully, more people will get involved.

I have people to thank and the names of the most prominent in my mind are displayed differently so that they stand out - since a lot of people do not read these notes and I truly feel these people should be recognized. As for the rest of the students out there who did not help with this book or get involved in any way I say "Do what you want" but I for one intend to participate, contribute, fumble, learn, go crazy and make my years at university more than just a bunch of transcripts and a degree certificate and leave with a bang not a whimper!

I'm trying to think of a fantastic way to end this note; something meaningful and special that all of you will treasure, but unaccustomed as I am to public pronouncements I will simply say GOOD LUCK with your lives and may you always, or almost always, be happy.
